

## Ingredients in Pfizer COVID-19 vaccine

From: <https://www.fda.gov/media/144414/download>  
FACT SHEET FOR RECIPIENTS AND CAREGIVERS  
EMERGENCY USE AUTHORIZATION (EUA) OF  
THE PFIZER-BIONTECH COVID-19 VACCINE TO PREVENT CORONAVIRUS DISEASE 2019  
(COVID-19)

### WHAT ARE THE INGREDIENTS IN THE PFIZER-BIONTECH COVID-19 VACCINE?

The Pfizer-BioNTech COVID-19 Vaccine includes the following ingredients: mRNA, lipids ((4-hydroxybutyl)azanediyl)bis(hexane-6,1-diyl)bis(2-hexyldecanoate), 2 [[polyethylene glycol)-2000]-N,N-ditetradecylacetamide, 1,2-Distearoyl-sn-glycero-3- phosphocholine, and cholesterol), potassium chloride, monobasic potassium phosphate, sodium chloride, dibasic sodium phosphate dihydrate, and sucrose.

Other ingredients:

Nanobots (Morgellon's)  
Strychnine  
Mercury  
Modified bacterial cellulose (works with Morgellon's)

The nanoliposome contains triglycerides (fats) that target specific organs and tissues, listed as most strongly targeted first:

1. Pineal gland in the brain (third eye).
2. Lungs
3. Pituitary in brain
4. Nerves
5. Muscles
6. Eyes
7. Reproductive system in males and females

The mRNA codes for the COVID-19 spike protein, which is similar to a protein in the reproductive system.

The mRNA also has a NLS (Nuclear Localization Signal) attached to it. This NLS will cause the mRNA to be transported to the nucleus of the cell, increasing the chances that the mRNA will reverse transcribe into DNA and integrate into the chromosomal DNA.

There is a 36% probability that each individual molecule of mRNA will result in integration into the chromosomal DNA.

Energetic contracts that are agreed to by receiving the vaccine:

- You accept all components of vaccine
- You belong to the System
- You obey
- You are obedient

Mind control through the nanobots:

- Be ill at ease
- Anxiety
- Obey
- Feeling of safety when following the rules
- Reptilians are our friends, are trustable, want to learn how to ascend in consciousness
