ZONDO COMMISSION

3/1/SCC/993

Affidavit – Ancillary affidavit with regard to State Capture

Prosecution of AR Fondse by SARB Gang - 3/1/SCC/705

Theft of Gold – February 2020 – 3/1/SCC/831

Attack on Economy & Sovereignty of SA – 3/1/SCC/907

I, Adriaan Rudolph Fondse, the deponent, with Identity Number 590603 5008 088, residing at 336 Bourke Street, Muckleneuk, Pretoria, declare as a grown man and concerned citizen of South Africa that I am authorised to dispose of this affidavit. The content of this affidavit is ancillary to the submissions listed above regarding the “Theft of Gold” and “Attack on the Economy & Sovereignty of South Africa through organised Crime in the South African Banking- and International Banking System” which is necessitates by additional evidence found that support the aforementioned submissions extending the knowledge of the matters. The content of this affidavit is within my personal knowledge, experience and interpretation of referenced documents to the extent disclosed herein, by embrace of arguments based on experience from cause(s) to consequence(s) (*a posteriori*) with research by appointment from Government (people of South Africa) which the content will direct, unless being pronounced otherwise.

Some disclosures will challenge the perceived “cause and effect” perceptions based on deliberate wrong explanations and/or deliberate exclusions from public scrutiny (including the Truth and Reconciliation Commission) already visible from partial disclosures by other individuals’ implicating the banks in presentations to the Zondo Commission. Research cases in world community and South Africa points to the knavishness of a worldwide organised crime syndicate who has devised a thieving banking and financial system expanding it through curriculum’s designed by them implemented into the curriculums of universities with the focus on the departments of economics, accounting and law without any public scrutiny. In this affidavit is also information disclosed that can bring about an almost immediate relive for the embattled South African economy and it is the deponents request that this Affidavit be considered by a Set-Down of the Constitutional Court to give effect to such prayers in order to safe South Africa and Africa from, civil war, total impoverishment, famine, and total degradation of humanity.

Attached to this affidavit is a letter addressed to the functionaries
