A: HOST Cathy Lauren

B: SOURCE OF ESOTERIC BOOKS

- **Phoenix Books in Columbus OH** – all manner of esoteric books that cannot be found generally; call 614-264-3100 to get Robert Peters, professional Astrologer & owner

C: INFORMATION ON Dr Keshe:

Introduction to the website

- **There is a wikipedia** on the foundation website: lots of definitions and answers to questions there too; also a first aid information page -
- **Also the kids workshops; the last 10 workshops** by Keshe **are about spirit**
- **First week in June /17 - good interview of Keshe** by someone from northern Europe: he gave directions on how to make GANS with a battery
- The **Kerry Ellis workshops** are also good

Keshe:

- Week of Aug 3, peace treaties for all the nations were signed and sent out to 196 countries : *only the Cherokee Nation responded*
- took those involved 8 hours to go through all 196 treaties – done with witnesses, and very ceremonially; they signed them all.
- then Mr Keshe said: now send thank you notes to all the leaders for signing the peace treaty; he was laughing when he said it, but still said "Do it! it will cause a ruckus in the offices wondering who signed it!!"
- he's a genius and knows his strategies!! and the work he does brings forth peace.

18th Thurs 6 AHAU – this is the end of this unial – we start a new module
sun energy with the rythmic energy of 6

Hard News – Rama, Tara R T

T: please keep everyone in the Circle of Support

T: Rama got a visit from Ashtar on Tuesday via holographic image – this has happened with Natasha, RanaMu previously

- Fills Cathy in on some background: RanaMu has a kind of holographic chamber and she brought in Dodi & Di; Larry Curly and Mo; Sweet Angelique the Cat, the King of Swords into the holographic meeting room . . .
 - Rama went up the mountain, dialed in and got Tom the Cat on his phone – as a holographic image! [see **INFORMATION RELATED TO THE NOTES** for the entire story]
 - All this technology will be accessible very quickly to the people; they are saying that people are waking up very quickly.
 - The Schumann Resonance Scale is going up; went off the scale in early December

- **Rama talked to the King of Egypt – Jan 4th; KOE called today Jan 11th**

KOE on Jan 4th : we are watching the end of the empire, the empire which has exterminated over 2 billion + people since 1980; this energy is going away

Jan 4th - He also explained that since the Grump put out his edict about Jerusalem this has insulted the entire Islamic world, and the results of this arrogant, irresponsible, rash, improper imposition, out of turn violation of international law will create serious ramifications for Israel– and Israel is the 51st State of the US, as we all know, meaning we are part of that story too

KOE, Jan 11th – brought in LM Nada and Dodi; Rama asked them both to tell him the story of the Palestinians from the ancient time to the present

Dodi said Just a minute; then there was a phone ringing, and Rama heard the music played by Nation of Change: *Let's get together and be all right!*

- Rama heard Ziggy and Stephen, sons of Bob Marley, say in unison:
- "Hello Lord Rama. Then Ziggy said "I am the heir to the King Solomon treasures that are still in the mines. They are protected by an etheric force field – I have seen Solomon's ring that was passed on to me by my Dad, Bob Marley, before he was killed; the ring can open the mines at the proper time, and this will bring in the monatomic gold which will change mankind's situation greatly.

- The two brothers said that the original story goes back to ancient Mu and Atlantis and the 12 solar rays of Living Love, Living Light, and that these 12 rainbow rays people, Mother being the 13th ray, migrated from Ancient Mu and Ancient Atlantis, over eons of time – the Moorish people over the world, and that the Palestinians are one group of the 12 + 1 tribes of Israel – Is-Ra-el / Children of the Sun – deeply melanated in their skin tone

- there was a split when the invaders from the Orion War came in to earth, and it's called the Indo-Ayrian split; they created a false timeline which is what they called the Israelites now, which are white skinned people – That is an insert lie. a fup in an insert Iranian split – after the destruction of Ancient Mu and Atlantis, a nuclear winter ensued, caused by the use of misqualified energies that they used to destroy of the Great Crystal of Atlantis

- This was a collusion of the Orion Warlords invading and occupying Atlantis; the destruction of the Great Crystal was equivalent to - with those types of misqualified energies - 10 or more nuclear bombs by destroying the great crystal which was the brain centre of the central nervous centre of the planet, and so caused the planetary breaking up [of the land]

- Atlantis was an entire yuga – a galactic, 5 D time period, a 26, 826 year cycle - and we don't have all the information – this goes very far back

- About 200,000 years ago, Lord Metatron did an upgrade at the DNA level for the human race, as the Annunaki did many experiments and nuked the planet many, many times over millions of years. If the Annunaki didn't like the results of their many experiments, they nuked the region on the planet and did some more experiments.
- The human story is a very, very long saga!

- Ziggy and Steven said "Very soon there will be excavations of scrolls that carry a similar energy to the telosonium plates, brought to earth by Merk and Lady of the Sun"

- see **Secret Places of the Lion** by George Hunt Williamson for background on Merk and Lady of the Sun - Merk was a previous incarnation of Tutankamen; Lady of the Sun was a previous incarnation of Ilipaaton, the full sister of Amunhotep III who was Akhenaton's father – she was the historian of ancient Mu 12,000 years ago who met the spaceman Merk, and interpreted his footprints!

- this is a VERY BIG story and is the joy of ending this old stuff and starting to learn about the true us!

Ziggy, Steven: On those plates is the original true story of the rainbow magenta children of earth.

- Then everyone went on to say "Time to beam up! The adventure continues! It is indeed all about love for the sake of all of the children of the earth, and for the sake of restoring our original divine blueprint of the Adom Kadmon, our true merkaba vehicle. World peace now! NESARA NOW! Michelle for President

Oprah's little speech: super powerful. Amy Goodman on January 8th aired it and the transcription will be there, too.

[SEE BELOW]

- Also the hoopla about her running for president:
 - since 2004, there has been planning going on to usher in this change – people met at Oprah's home in Costa Rica - Randi Rhodes; Bernie Sanders; Elizabeth Warren, with Michelle Obama by encrypted technology
- Oprah's powerful speech – the theme of the Golden Globes was "Time's Up" about ushering in the Divine Feminine
 - Rama was told by Natasha yesterday:
 - Angela Davis will be the Vice; most likely Oprah will be Secretary of State
- What about protocol, you ask?
 - **The Republicans** since WW 2 have **been committing treason** – all has been an avenue to keep the 4th Reich in power – This party closes and is completely gone
 - having Michelle, Angela, Oprah in place is not upsetting protocol: they are replacing the treason

Host: Cathy Lauren [CL]:

semi-retired; working locally which has kept her off the program for 18 months

GUEST: FRANK CHILE

When asked about what he'd like to talk about tonight, he quips:

- Wants to start with the meaning of life, and go on from there!!! Happy New Year!

- Last time he was on, he described the memorial for Bill Tompkins
 - Mary Tompkins has moved in her with her daughter; feels Bill around her all the time
 - they were married for 67 years, and he made every day special for her

Some background on Bill Tompkins

- Bill wrote a book called **Selected by Extra Terrestrials** –
 - from an early age, he knew his mission was to make known the presence of the ET s –
 - when he was young, a witness to the "Battle of Los Angeles": saw a huge craft come out of the ocean to Long Beach and send down a great beam on entire Tompkins family. Then it moved over Los Angeles – it was a craft of Star beings who wanted to show that nothing on earth could affect them
- Bill could make models from what he saw, due to his photographic memory
 - Some navy personnel saw his models of the boats in the harbour, and wanted to know who did them, and went to visit the family. As a result, at 14, he joined the navy with the understanding that he would not be drafted for active service.
 - He worked with the Navy Department in a highly classified project – they had 34 German operatives who rotated back to the US and share what they'd learned about the German technology that was being developed and Bill had to create the visuals – drawings, models which was taken to various professionals who could assess what was going on

- at the end of the war, left the Navy – then went to Douglas, Lockheed, Brumen, other aircraft companies - took info he had received from the Nordic visitors who worked in the think tanks – 2 women and 1 man who gave him the info he needed – the work Bill did led to a program called Solar Warden – some were 18 miles long, and could hold 40-50,000 people.
- Bob Wood was also in Douglass aircraft but in a different unit – both men knew the same people in the company, yet Bill’s knowledge was at a more clandestine level. Bill was given the OK to release the materials, via 6 books and work with the Nordics and others as required.
 - Bill got the info as a flash of bright light, and got the detail as the lowest level possible – the integrated circuit level – he worked with Bob Wood and Michael Salla
 - He got to the 2017 MUFON conference – the last one before he transitioned -
 - Mary said Bob Wood said Bill had put together enough documentation to create 3 more books – Michael Salla validating the information Bill has included and is getting turn around of 3 weeks with his FOIA requests [Freedom of Information Act] – an astounding thing, as most people have to wait a very long time - as per George Filer who has had to wait 14-16 years! They have also found pictures of Bob from the early days
 - The storage facility Bill had is being gone through by Bob Wood and Salla
- a few weeks ago, there was daylight footage from the Navy which is the body calling the shots
 - the navy is in process of creating more of a foundation for disclosure
 - Navy is to release more to the public will show a much larger number of craft – almost a fleet of saucers that the F16, F18 jets managed to get photos of.
- Robert Bigelow of Bigelow Aerospace – has set up 4 warehouses in Las Vegas for the Navy, holding all kinds of materials, crash materials, various technologies from our space Including memory metal – METAL FOUND at the Roswell retrieval looked like stainless steel, but was thin like aluminum foil, could be balled up in your hand and when it was released, it went flat again; it is going to be made available to the public, too
- when Mary saw the footage of F18s and all
 - she was able to tell her family that what they thought were stories, are actual events and true experiences - about to be released to the public! The time is now!

CL: the energy seems to ready for people to receive the information

FC: Has been told they going to release the energy that the craft use, and put an end to fossil fuels – can’t come too soon!

CL: status of Craig Campobosso?

FC: something is coming forward which will enable him to advance the Valiant Thor story

- Rob Potter doing a conference at Mt Shasta in July - called “From Venus with Love”
 - has invited some people like George Filer – and also Craig to come and talk about Valiant Thor and show the documentary he has made.
- Going to show the Victor 1, other ships so people see effects like they’ve never seen before!

FC: Valiant Thor stayed in the lower levels of the Pentagon – 1957-1960;

- Dr Frank Stranges was invited by Thor to come and meet him. Craig made a short film about Valiant Thor and on the basis of that, got funding for the longer film.

CL: when Valiant Thor tried to get the people in the Pentagon to accept that there was available for all of us.

FC: All the people at the Pentagon wanted was info that could help them create war. Thor wanted to give them the information about how to prevent disease and other helpful info for the people. The military-industrial- complex essentially pushed Eisenhower into the decision he made, which he regretted making later. He had been told not to believe the Grays as they were liars

CL: the world has suffered as a result of the deception

FC: Thor did not leave the earth up 4 ten year programs

- first 10 year program: to contact every president and prime ministers to know about the star beings; none were willing to come forward
- the next 10 year program was about contacting all the heads of religions about the cosmic families – Dr Stranges asked Val what the religious ones said: they said “You row your boat; we’ll row ours!”
- the 3rd 10 years was contacting the head of major universities, colleges around the world about being part of a cosmic family and the background – no takers here, either!
- the 4th is grass roots movement – he contacted people at local levels – that has created the greatest amount of growth and acceptance of the story

CL: wants people to know what is available – will start the healing of the world!

FC: talking to doctors in U of Penn, saying they will soon stop operating on people – will be using far more advanced techniques of energy for healing purposes.

FC: Read several years ago about something created by an Israel inventor. If a soldier is shot or wounded: have a device that creates an electro magnetic field – heals with no stitches and happens quickly

CL: it’s called Atomizing: works at the cellular level – the re-atomization at the cellular level so can re-grow limbs, for example!

Caller/C: when talking of Bill Tompkins and people, like Valiant Thor –

what has FC learned in their work about the factions that exist in the military in terms of the factions that exist in the US military? And who’s in leadership there

FC: Has heard from people at pulse points – about 80% of the green light has been approved, and the rest are falling rapidly into line

- Bill Tompkins told Frank about an annual conference in San Diego: San Diego 2000 and the last one he went to, all the admirals and commanders were coming up to him and talking as if they knew him; he was being encouraged to put the info out – said they threw holy water on his information!
- And no one had said a negative word about what he was sharing; they knew about his book and what he was doing. He was still working on off planet craft for the navy right until the time he died. The 7 groups in the navy have the technology to go from earth to the middle of the galaxy in 45 minutes.
 - The next group of ships being built will work on consciousness - propelled by thought. Think of the location, and you’re there.
- A commercial of Grummond hangar - the shape under the tarp is clearly a disc, standing on a triangle – only refer to it, don’t show it.

C/C: why has Bill’s work remained secret – who says it’s secret and for how long?

FC: got the green light from a 4 star admiral after; got permission to talk on radio shows

- was still working on the stuff and they told him to continue talking about it
- doesn’t think there was anything malicious about his passing – and he prepared for it by putting together enough material for 3-4 more books

C/C: The only person who seems to be talking about this is Bill – what about all the other military officers – what keeps them from moving forward on a large scale?

- there's a tarp on all of it – when will it end?

FC: Bill thought the secrecy was ending now

- Bill was the original one to put together the Rockwell Integrated Space Chart; Bill was the one who actually created it in the first place, and it was finished at Rockwell later – includes events starting in 1960 and goes out to 2034
- Bill told Frank that if they're releasing this chart, we're close to full disclosure - everything in that chart has been accomplished; also told Frank that Col Ware was right: the galactics are over 1000 years ahead of what the people know
- Look up Disclosure Project on line – will see dozens and dozens of testimonies that Dr Steven Greer has gotten from all kinds of people who had access to that knowledge

C/C: Greer has been the one telling various people in high levels of the military what is going on, yet it sounds like Bill has been dealing with the folks who are confident that all this will be coming out and is not worrying about those who try to prevent advancement.

FC: Greer interviewed Tompkins who asked who was Greer's support network:

1. FBI; 2. Navy; 3. Air Force. They are backing the disclosure effort which is coming to light incrementally, and said they will make sure people who speak of what they know will not lose benefits, etc; provide amnesty who have been involved in secret projects
- FC's uncle told him: they are here, the government knows about it and that's all he'd say. Also said he knew that the lids of missile silos all over the world were being tipped over by the visitors going over the base, just to show they could do it – in spite of the tons of re-inforced concrete in each lid! They also burned out the electronics for silos just because they could do it!

FC: met someone to speak at a conference on quantum entanglement, who told him that advanced physics is at the point when we create something with advanced physics, it is replicated instantly: all will be wi-fi, no cell phones, cell phone companies

- Bigelow has said that the scientists and others in the scientific community are in favour of having people see what is in the warehouses in Las Vegas.

C/C: what are FC's contacts saying about the Trump Administration and what is said?

FC: a scientist approached FC after a conference he spoke at and asked the same question: seems Valiant Thor met both Trump and Putin in private meetings; he wouldn't work without either due to their lack of integrity

- Things will still go forward; the person he talked to is in a place to know
- when an engineer spoke to FC after a meeting who said, when he saw the Rockwell Integrated Space Chart, he realized it's about off-planet technology – even engineers with high degrees of clearance are still being kept from knowing the overall goals

FC: Bill shared that at the age of 5, he could bi-locate – he travelled through space and went to a world where people looked just like him, called them Nordics – they told him they'd see him when he got older!

- Later when he was older and talked to them, there were 2 women and the man, who was there to protect the women who communicated with him telepathically as well as verbally
- Bill was never interested in anyone else but Mary, no matter how beautiful or whatever!

FC: Bill & Mary used to live in Medford, OR there is a farm outside of Medford, OR – the space beings take turns giving lessons to the children of Navy personnel – the space beings use holographic images to teach and send them out of their 3rd eye; the kids are also taught

out doors in the sun. The kids are so advanced, they are taken into the service and work with the positive effects of the presence of space beings.

CL: will the people working in the high places in the services – are they walk-ins – and what about the way learning will be changed?

FC: could tell Bill about experiences he had had, and Bill had the ability to tune into the time of the event and tell FC what would be coming next?

FC: don't have to bring on the gloom and doom scenario!

FC: George Filer had to go to hospital – decided to not do surgery

- had a near death experience – was upstairs; one being was a doctor, 2nd was a doctor, 3rd was a woman – told him he was at a crossroads: could stay there, or accept the new mission on the earth – which he accepted – has a great cosmic family, as well as the one on earth.

- Someone from Florida wants to write a book on him – John is the name and will also talk to Jeff Rense too

- For information on the study of Alternate Realities – SOAR

- It's in a library – write to Frank for information frankchilie@hotmail.com

- Google this: New Jersey UFO Meet up Group – and that will take you to SOAR

Story about Paula Harris – from Italy – reneged on an appointment to meet a galactic being, and then regretted not carrying on with the meeting

CL: stood in a parking lot to look at a ship and take in all the detail

Caller/R: reading **Stranger in the Pentagon** – and he had a chat with Valiant Thor

- the galactics are here all the time – just have to talk to them

FC: talked to an Author in Colorado who wrote **becoming a cosmic being** – Don Daniels

Has been in touch with a Pleiadian who looks like a Cherokee - saw a picture her who talks to Don – she says something like 2 million Pleiadians are here all around the planet, and are interacting

CL: brings up the Ringing Cedar Series books and Anastascia

FC: a CIA Division head regarding off-planet technology: writes poetry about him and his wife travelling to the stars and going through portals . . .

FC: corn and wheat, bees and roses were gifts from Venus

Closing

News Update – December 14, 2017

Rama had a Jedi Council meeting at RanaMu's office, and RanaMu and Rama got to speak with Lady Di and Dodi, the King of Swords, the King of Egypt, Natasha, Larry, Curly, and Mo.

At first the Council Meeting started at RanaMu's office. Then RanaMu told Rama to go ahead and do some of his errands. Ram got in his car and drove down the mountain – RanaMu's office is located at the DOE, 1/3 of the way up the Santa Fe Ski Valley mountain where there is no skiing this year due to the drought.

He drove down the mountain, found a safe place to stop, pulled out his cell phone out of its case and activated the encryption technology on the phone. Then he put his open cell phone on the passenger seat beside him. Then Tom the Cat showed up out of Rama's cell phone as a life-sized holographic image, sitting in that same passenger seat, like in the TV series *Time Tracks*. At that point, while Tom was sitting in the seat, he pushed some buttons on his galactic hand technology. Rama said it was not a cell phone, rather a galactic piece of technology. Then on his own cellphone screen, Ram could see all the other Council members sitting in RanaMu's holographic room off of her office.

At that point, Rama asked "OK, everyone! What have I done to earn the honour of being present with all of you?"

The KOS and Natasha responded and told Rama that "It's time you comprehend the magnitude of this moment in our galactic history/herstory." They said the resistance [persistence] movement has exponentially expanded across the solar system, and they said the energies are only going to get higher and stronger as we participate in co-creating freedom for Mother Titalachoria, the Diamond One, and for all of us human beings and all other beings here with us. OM FREEDOM.

These other unsavoury folks are at the very final end of their time. The twilight of the Dark Lords is at its end.

They said the story about **Chelyabinsk** to the east of the [Ural Mountains](#) in Russia, on the [Miass River](#), on the border of Europe and Asia: "There were no troops, no gas masks, no radio active Routin 106 – the whole story is a fear-based attempt by the dark lords to cause more fear. Cancel Clear."

"See you on the bridge, Lord Rama. Stay in the Light and remain calm. Namaste." [Namaste: I honour the place in you in which the entire Universe dwells. I honour the place in you which is of love, of truth, of light, and of peace. As you are in that place in you, and I am in that place in me, WE ARE ONE.]

Hollywood actors and actresses celebrated the #MeToo movement and demanded gender and racial justice at Sunday night's Golden Globe Awards. Many attendees answered the call to wear black and wore pins that read "Time's Up!" On Sunday, Oprah Winfrey made history by becoming the first African-American woman to win the Golden Globe lifetime achievement award. The first African American to receive the honor was Sidney Poitier in 1982. During the ceremony, Golden Globes host Seth Meyers joked with Oprah, suggesting she should run for president. The joke, and Oprah's powerful acceptance speech, fueled a wave of speculation and enthusiasm about a possible 2020 bid by the actress. In response, Oprah's longtime partner Stedman Graham said, "It's up to the people. She would absolutely do it." We air Oprah's acceptance speech, as well as speeches by Golden Globes host Seth Meyers and award winners Nicole Kidman and Laura Dern of "Big Little Lies," Elisabeth Moss of "The Handmaid's Tale," Frances McDormand of "Three Billboards Outside Ebbing, Missouri," and Sterling K. Brown of "This Is Us."

AMY GOODMAN: "Time's Up!" That was the message at last night's Golden Globes ceremony in Hollywood, where actors embraced the #MeToo movement and called for gender and racial justice in the post-Harvey Weinstein era. The red carpet went dark, as many actors answered the call to wear black and wore pins that read "Time's Up!" Golden Globes host Seth Meyers kicked off the evening with a speech focused on sexual harassment in Hollywood, taking aim at disgraced Hollywood mogul Harvey Weinstein and actor Kevin Spacey.

SETH MEYERS: It's 2018. Marijuana is finally allowed, and sexual harassment finally isn't. ... Harvey Weinstein isn't here tonight, because, well, I've heard rumors that he's crazy and difficult to work with. But don't worry, he'll be back in 20 years, when he becomes the first person ever booed during the "in memoriam." ... Well, despite everything that happened this year, the show goes on. For example, I was happy to hear they're going to do another season of *House of Cards*. Is Christopher Plummer available for that, too? I hope he can do a Southern accent, because Kevin Spacey sure couldn't.

AMY GOODMAN: Eight actresses brought social justice activists with them to the Golden Globes this year: Michelle Williams brought #MeToo movement founder Tarana Burke; Meryl Streep walked the red carpet with Ai-jen Poo, director of the National Domestic Workers Alliance; Shailene Woodley was accompanied by Suquamish Tribe member Calina Lawrence; Emma Stone brought tennis champ and LGBT advocate Billie Jean King—Stone portrayed the athlete in the film *Battle of the Sexes*; Susan Sarandon brought media justice activist Rosa Clemente; and Amy Poehler's guest was Saru Jayaraman, president of Restaurant Opportunities Center. In a few minutes, Clemente and Jayaraman will join us from Los Angeles, after their long night at the Golden Globes. This is Golden Globes host, comedian Seth Meyers.

SETH MEYERS: I want to point out that sitting next to Amy is Saru Jayaraman. Give it up for Saru, everyone. She is one of many activists from outside of this industry who have been invited here tonight in support of the #TimesUp initiative. It's great, yeah. Give it up. It's great that this movement understands that what tarnished our world this year tarnishes so many others, and it's reaching out to help them, too.

AMY GOODMAN: Meanwhile, the first Golden Globe of the night went to actress Nicole Kidman for her performance in HBO's the *Big Little Lies*. Kidman won for best actress in a limited series for her performance.

NICOLE KIDMAN: My mama was an advocate for the women's movement when I was growing up. And because of her, I'm standing here. My achievements are her achievements. Antonia Kidman, my sister, and I say say, "Thank you, Janelle Kidman, for what you fought for so hard." And this character that I played represents something that is the center of our conversation right now: abuse. I do believe, and I hope, we can elicit change through the stories we tell and the way we tell them. Let's keep the conversation alive. Let's do it.

AMY GOODMAN: Also from *Big Little Lies*, Laura Dern took home the award for best supporting actress in a limited series or TV movie.

LAURA DERN: The most outrageous, complicated woman and a terrified mother, terrified because her little girl was being abused and bullied, and she was too afraid to speak up. Many of us were taught not to tattle. It was a culture of silencing, and that was normalized. I urge all of us to not only support survivors and bystanders who are brave enough to tell their truth, but to promote restorative justice. May we also please protect and employ them. May we teach our children that speaking out, without the fear of retribution, is our culture's new North Star.

AMY GOODMAN: Elisabeth Moss won the award for best actress in a television series—drama, for her role in *The Handmaid's Tale*. The series is based on the novel by author Margaret Atwood, which was originally published in 1985. Moss used her acceptance speech to honor Atwood.

ELISABETH MOSS: This is from Margaret Atwood: "We were the people who were not in the papers. We lived in the blank white spaces at the edges of print. It gave us more freedom. We lived in the gaps between the stories." Margaret Atwood, this is for you and all of the women who came before you and after you who were brave enough to speak out against intolerance and injustice and to fight for equality and freedom in this world. We no longer live in the blank white spaces at the edge of print. We no longer live in the gaps between the stories. We are the story in print, and we are writing the story ourselves. Thank you.

AMY GOODMAN: A movie that connects to the #MeToo moment emerged as the night's top film, *Three Billboards Outside Ebbing, Missouri*, about a mother avenging the rape and murder of her daughter, won best picture—drama, best supporting actor, best screenplay and best actress—drama, for Frances McDormand, who referred to being part of a "tectonic shift" in Hollywood.

FRANCES McDORMAND: I keep my politics private. But it was really great to be in this room tonight and to be a part of the tectonic shift in our industry's power structure. Trust me, the women in this room tonight are not here for the food. We are here for the work. Thank you.

AMY GOODMAN: In another historic first for the night, actor Sterling K. Brown became the first African-American man to win a Golden Globe for best actor in a TV series—drama, for his role in *This Is Us*.

STERLING K. BROWN: Throughout the majority of my career, I have benefited from colorblind casting, which means, you know, like, “Hey, let’s throw a brother in this role.” Right? It’s always really cool. But, Dan Fogelman, you wrote a role for a black man, like that could only be played by a black man. And so, what I appreciate so much about this thing is that I’m being seen for who I am and being appreciated for who I am. And it makes it that much more difficult to dismiss me or dismiss anybody who looks like me.

AMY GOODMAN: That was Sterling K. Brown. Well, among all of the major achievements and speeches at Sunday night’s Golden Globes, the most talked about was Oprah Winfrey, who became the first African-American woman to win the Cecil B. DeMille Award for lifetime achievement. The first African-American to receive the honor was Sidney Poitier in 1982. This is Oprah Winfrey.

OPRAH WINFREY: In 1964, I was a little girl, sitting on the linoleum floor of my mother’s house in Milwaukee, watching Anne Bancroft present the Oscar for best actor at the 36th Academy Awards. She opened the envelope and said five words that literally made history: “The winner is Sidney Poitier.” Up to the stage came the most elegant man I had ever seen. I remember his tie was white, and, of course, his skin was black. And I had never seen a black man being celebrated like that. And I have tried many, many, many times to explain what a moment like that means to a little girl, a kid watching from the cheap seats, as my mom came through the door bone tired from cleaning other people’s houses. But all I can do is quote and say that the explanation in Sidney’s performance in *Lilies of the Field*: “Amen, amen. Amen, amen.” In 1982, Sidney received the Cecil B. DeMille Award right here at the Golden Globes. And it is not lost on me that, at this moment, there are some little girls watching as I become the first black woman to be given this same award.

It is an honor. It is an honor, and it is a privilege, to share the evening with all of them and also with the incredible men and women who have inspired me, who have challenged me, who have sustained me and made my journey to the stage possible: Dennis Swanson, who took a chance on me for *A.M. Chicago*; Quincy Jones, who saw me on that show and said to Steven Spielberg, “Yes, she is Sofia in *The Color Purple*”; Gayle, who has been the definition of what a friend is; and Stedman, who’s been my rock—just a few to name.

I’d like to thank the Hollywood Foreign Press Association, because we all know that the press is under siege these days. But we also know that it is the insatiable dedication to uncovering the absolute truth that keeps us from turning a blind eye to corruption and to injustice, to—to tyrants and victims and secrets and lies. I want to say that I value the press more than ever before, as we try to navigate these complicated times.

Which brings me to this. What I know for sure is that speaking your truth is the most powerful tool we all have. And I’m especially proud and inspired by all the women who have felt strong enough and empowered enough to speak up and share their personal stories. Each of us in this room are celebrated because of the stories that we tell. And this year, we became the story. But it’s not just a story affecting the entertainment industry. It’s one that transcends any culture, geography, race, religion, politics or workplace. So I want tonight to express gratitude to all the women who have endured years of abuse and assault, because they, like my mother, had children to feed and

bills to pay and dreams to pursue. They're the women whose names we'll never know. They are domestic workers and farmworkers. They are working in factories, and they work in restaurants. And they're in academia, in engineering, in medicine, in science. They're part of the world of tech and politics and business. They're our athletes in the Olympics, and they're our soldiers in the military.

And there's someone else: Recy Taylor—a name I know and I think you should know, too. In 1944, Recy Taylor was a young wife and a mother. She was just walking home from a church service she had attended in Abbeville, Alabama, when she was abducted by six armed white men, raped and left blindfolded by the side of the road, coming home from church. They threatened to kill her if she ever told anyone. But her story was reported to the NAACP, where a young worker by the name of Rosa Parks became the lead investigator on her case. And together, they sought justice. But justice wasn't an option in the era of Jim Crow. The men who tried to destroy her were never persecuted. Recy Taylor died 10 days ago, just shy of her 98th birthday. She lived, as we all have lived, too many years in a culture broken by brutally powerful men. For too long, women have not been heard or believed, if they dared to speak their truth to the power of those men. But their time is up. Their time is up! Their time is up. And I just hope—I just hope that Recy Taylor died knowing that her truth, like the truth of so many other women who were tormented in those years, and even now tormented, goes marching on. It was somewhere in Rosa Parks's heart almost 11 years later, when she made the decision to stay seated on that bus in Montgomery, and it's here with every woman who chooses to say "Me, too," and every man—every man who chooses to listen.

In my career, what I've always tried my best to do, whether on television or through film, is to say something about how men and women really behave, to say how we experience shame, how we love and how we rage, how we fail, how we retreat, persevere, and how we overcome. And I've interviewed and portrayed people who have withstood some of the ugliest things life can throw at you, but the one quality all of them seem to share is an ability to maintain hope for a brighter morning, even during our darkest nights. So I want all the girls watching here now to know that a new day is on the horizon! And when that new day finally dawns, it will be because of a lot of magnificent women, many of whom are right here in this room tonight, and some pretty phenomenal men, fighting hard to make sure that they become the leaders who take us to the time when nobody ever has to say "Me, too" again. Thank you. Thank you.

AMY GOODMAN: Oprah Winfrey, accepting the Cecil B. DeMille Award for lifetime achievement Sunday night at the Golden Globes. Just after her speech, Natalie Portman took the stage to announce what she noted were the all-male nominees for best director. During the ceremony, Golden Globes host Seth Meyers joked with Oprah, suggesting she should run for president. The joke, and Oprah's powerful acceptance speech, fueled a wave of speculation and enthusiasm about a possible 2020 bid by the actress. In response, Oprah's longtime partner Stedman Graham said, quote, "It's up to the people. She would absolutely do it," he said.

When we come back, we'll speak with two of the social justice activists who accompanied actresses on the red carpet and to the Sunday Golden Globes. This is *Democracy Now!* Back in a minute.

AMY GOODMAN: "Remember Me" by Miguel and Natalia Lafourcade. It's the theme song to the movie *Coco*, which just won a Golden Globe for best animated motion picture.
